Subject: Letter to AG Koster

Dave/Curtis,

Please cooperate to draft a letter from me to AG Koster outlining EPA's CERCLA authority and intent to revise OU boundaries at West Lake/Bridgeton in order to exercise regulatory authority over the PRPs, and consistent with ongoing site evaluations.

Please insert a graf outlining an arrangement whereby EPA would work CERCLA at the entire NPL site and Missouri would continue to enforce its order(s) v the PRPs to control the SSE.

Please insert a graf outlining the implications of DNR's NPDES and RCRA authorities/responsibilities for the above graf pending analysis of the leachate data provided to MDNR and EPA from PRP contractors' records.

Thanks,
Karl
